

CRC Project Yreka, CA - CalTrans

Mateen Rebar #6 - 1000 feet of Highway

Installer: North Coast Steel Company

August 6, 2014

CalTrans: YREKA, CA CRC Project - Needed non-corrosive, long term durability, high strength, and ease of installation. Comparing steel to GFRP in test sections. High mountainous area with regular ice/snow conditions combined with high heat in the summer.
